

Intelligent Transportation System
(CAD/AVL)
RFP No: 2018-30

TO ALL PROSPECTIVE FIRMS

Cherriots is seeking to modernize its transit technology and implement Intelligent Transportation Systems (ITS) features that will assist with improving performance, service management, and customer communications. Central to their technology goals and vision is the implementation of a fixed route Computer Aided Dispatch (CAD)/Automated Vehicle Location (AVL) system. A fixed route CAD/AVL system, as envisioned, would improve the agency's effectiveness in delivering quality services to its customers and the communities it serves.

Cherriots seeks proposals from qualified firms to provide, install, and support design, develop, and implement a CAD/AVL system as set forth in the Request for Proposal (RFP). Proposals must be submitted in accordance with the requirements of the RFP. Questions may be submitted to Brian Woodall, Procurement/Contracts Manager, Cherriots Procurement & Contracts Department; email: brian.woodall@cherriots.org. Proposals must be received no later than December 8, 2017 at 5:00 p.m. (local time).

SAMTD Utilizes the State of Oregon's e-procurement system (ORPIN). Interested Proposers are asked to register online @ <http://orpin.oregon.gov/open.dll/>. In the event solicitation addenda are issued, only registered Proposers will be notified via E-mail of the availability of addenda for download. Acknowledgement of addenda is required.
